LMG Adds Barco Projectors to Rental Inventory

Written by Debi Moen Thursday, 03 January 2013 12:32

ORLANDO – LMG, Inc. recently added Barco HDQ-2K40 projectors to its rental inventory to support live events. Said Les Goldberg, CEO/president of LMG, "The brightness of these projectors allows us to offer a new level of high quality, large scale projection mapping. When you see these projectors and what they can do, all you can say is 'wow."

More details from LMG (http://www.lmg.net):

ORLANDO – LMG, Inc., a full service provider of video, audio and lighting support, recently added a supply of Barco HDQ-2K40 projectors to the firm's video inventory to support live events.

Barco's HDQ-2K40 has a 40,000 lumen light output and 2K resolution. The HDQ is also equipped with Barco's ImagePro technology with Athena scaler for flexible scaling.

LMG offers a wide range of Barco projectors as part of their rental inventory. "We have a history of success with the Barco product line, and the HDQ-2K40 projectors are the perfect addition to round out our projection solutions for live events," said Les Goldberg, CEO/president of LMG. "The brightness of these projectors allows us to offer a new level of high quality, large scale projection mapping. When you see these projectors and what they can do, all you can say is 'wow."
